Warning and Disclaimer

This book is designed to provide information the Cisco Security written exam. Every effort has been made to make this book as complete and as accurate as possible, but no warranty or fitness is implied.

The information is provided on an "as is" basis. The authors, editors, and Network Learning Inc., shall have neither liability nor responsibility to any person or entity with respect to any loss or damages arising from the information contained in this book or from the use of the discs or programs that may accompany it.

The opinions expressed in this book belong to the author and are not necessarily those of Network Learning Inc.

Trademark Acknowledgements

All terms mentioned in this book that are known to be trademarks or service marks have been appropriately capitalized. Network Learning Inc. cannot attest to the accuracy of this information. Use of a term in this book should not be regarded as affecting the validity of any trademark or service mark.

Feedback Information

At Network Learning Inc, our goal is to create advanced technical material of the highest quality and value. Each book is authored with attention to detail, undergoing strenuous development that involves input from a variety of technical experts.

For technical support on this book, please visit: www.securityie.com

Readers' feedback is a natural part of this process. If you have any comments regarding how we could improve the quality of our materials, or otherwise change it to better suit your needs, you can contact us through e-mail at sales@ccbootcamp.com. Please make sure to include the book title and ISBN number in your message. Also, feel free to visit our website: www.ccbootcamp.com for information on many more great products!

Thank you for your input

About the contributors:

Author – Colby LeMaire

Colby LeMaire (CCIE #12968, CISSP, CCDP, CCNP, MCSE, MCDBA) is a Network Consulting Engineer with Cisco Systems. He has over 12 years of experience in networking and security with most of that time spent with the Department of Defense and other Government agencies. He holds a BS degree in Computer Information Systems and has most recently focused on Network Management and Security projects.

Author – Farrukh Haroon

Farrukh Haroon (CCDA, CCSP, CARLSS, CSEP) is a network engineer currently employed with a Cisco Systems Silver Partner in the Middle East. Farrukh is currently focussing on network security and is preparing for his CCIE Security Lab Exam.

Author – Brad Ellis

Brad Ellis (CCIE #5796, CCSI #30482, CSS1, CCDP, CCNP, MCNE, MCSE) works as a network engineer and is CEO of Network Learning Inc. He has been dedicated to the networking industry for over 12 years. Brad has worked on large scale security assessments and infrastructure projects. He is currently focusing his efforts in the security and voice fields. Brad is a dual CCIE (R&S / Security) #5796.

Table of Contents

| | |
|---|----------|
| Chapter 1 Security Protocols | 1 |
| Authentication, Authorization and Accounting | 1 |
| AAA Overview | 1 |
| Overview: AAA Security Services..... | 1 |
| AAA Terminology | 3 |
| Benefits of Using AAA | 3 |
| AAA Configuration Process – Overview | 4 |
| AAA Request for Comments (RFCs)..... | 4 |
| Remote Authentication Dial-In User Service (RADIUS)..... | 4 |
| Introduction | 4 |
| Background Information..... | 4 |
| Authentication and Authorization | 5 |
| Accounting | 6 |
| Radius Packet Format | 7 |
| Radius Packet Types | 7 |
| Radius Files | 8 |
| Radius Attributes | 9 |
| No | 10 |
| IETF Attributes vs. VSAs | 22 |
| RADIUS Configuration Task List..... | 23 |
| AAA and RADIUS IOS Configuration | 24 |
| Named Method Lists for Authorization | 25 |
| Terminal Access Controller Access Control System Plus (TACACS+) | 26 |
| Introduction | 26 |
| TACACS+ Packet Format | 26 |
| TACACS+ Encryption | 28 |
| TACACS+ Authentication | 28 |
| TACACS+ Authentication Example Sequence | 29 |
| TACACS+ Authorization..... | 29 |
| Attribute | 37 |
| RADIUS and TACACS+ Compared..... | 41 |
| Cryptographic Algorithms | 41 |
| Introduction | 41 |
| Symmetric Algorithms | 42 |

Table of Contents (Continued)

| | |
|--|----|
| Asymmetric Algorithms | 43 |
| Hash Functions | 44 |
| Digital Signatures..... | 44 |
| Advanced Encryption Standard (AES)..... | 44 |
| Data Encryption Standard (DES) | 46 |
| Triple DES (3DES)..... | 46 |
| Wireless Security Protocols | 46 |
| Introduction | 46 |
| Extensible Authentication Protocol (EAP) | 47 |
| Protected Extensible Authentication Protocol (PEAP)..... | 48 |
| Temporal Key Integrity Protocol (TKIP) | 48 |
| 802.11i..... | 48 |
| VPN Protocols..... | 49 |
| Introduction | 49 |
| Virtual Private Networks Defined | 49 |
| Virtual Private Networks Goals | 50 |
| Types of Virtual Private Networks | 51 |
| Benefits of Virtual Private Networks | 54 |
| VPN Security Protocols – IPSEC..... | 54 |
| IPSec Standards and Protocols..... | 55 |
| IPSec Terminology | 56 |
| IPSec Functionality..... | 58 |
| IPSec Modes and Packet Encapsulation..... | 59 |
| Encapsulating Security Payload (ESP) | 59 |
| Authentication Header (AH) | 60 |
| Authentication Header vs. ESP | 62 |
| Further Reading | 63 |
| VPN Security Protocols – Internet Key Exchange (IKE) | 63 |
| IKE Benefits | 63 |
| IKE Protocols..... | 64 |
| IKE Phases..... | 64 |
| IKE Main Mode and Aggressive Mode | 65 |
| IKE Authentication | 66 |
| Creating IKE Policies..... | 67 |
| Diffie Hellman..... | 67 |
| IPSEC and Fragmentation..... | 69 |
| IPSEC and GRE | 69 |
| IPSEC and QoS | 71 |
| Point to Point Tunneling Protocol | 72 |

Table of Contents (Continued)

| | |
|--|------------|
| Configuration Summary: PPTP | 73 |
| Configuration Sample: Basic PAC Setup:..... | 73 |
| Layer 2 Tunneling Protocol | 74 |
| L2TP Benefits | 75 |
| L2TP Implementation Topologies | 76 |
| L2TP Security | 76 |
| Chapter 1 Questions | 77 |
| Chapter 1 Answers | 89 |
| | |
| Chapter 2 Application Protocols..... | 91 |
| Domain Name System (DNS) | 91 |
| Trivial File Transfer Protocol (TFTP)..... | 93 |
| File Transfer Protocol (FTP)..... | 95 |
| Hypertext Transfer Protocol (HTTP)..... | 96 |
| Secure Socket Layer (SSL) | 99 |
| Simple Mail Transfer Protocol (SMTP) | 100 |
| Network Time Protocol (NTP) | 103 |
| Secure Shell (SSH)..... | 105 |
| Simple Network Management Protocol (SNMP) | 108 |
| Lightweight Directory Access Protocol (LDAP) | 110 |
| Active Directory | 111 |
| Remote Data Exchange Protocol (RDEP) | 111 |
| Chapter 2 Questions | 112 |
| Chapter 2 Answers | 117 |
| | |
| Chapter 3 General Networking | 118 |
| Networking Basics / OSI Model..... | 118 |
| TCP/IP Model..... | 119 |
| Routing and Switching Concepts..... | 120 |
| Cisco Hierarchical Internetworking Model..... | 120 |
| Distance-Vector Routing Protocols | 121 |
| Link-State Routing Protocols | 122 |
| Hybrid Routing Protocols | 122 |
| Routing Loops..... | 123 |
| Route Summarization | 123 |
| Tunnels | 126 |
| Networking Standards..... | 126 |
| Protocol Mechanisms | 128 |

Table of Contents (Continued)

| | |
|--|------------|
| Transmission Control Protocol (TCP) | 129 |
| User Datagram Protocol (UDP) | 130 |
| Address Resolution Protocol (ARP) | 131 |
| General Bridging Rules..... | 133 |
| LAN Switching | 134 |
| Routing Information Protocol (RIP) & RIP V2 | 134 |
| Interior Gateway Routing Protocol (IGRP) | 136 |
| Open Shortest Path First (OSPF) | 137 |
| Enhanced Interior Gateway Routing Protocol (EIGRP) | 147 |
| Border Gateway Protocol (BGP)..... | 158 |
| High-Level Data Link Control (HDLC) | 169 |
| Point-to-Point Protocol (PPP)..... | 169 |
| Modems and Async..... | 170 |
| IP Multicast | 170 |
| Benefits of IP Multicast | 171 |
| IGMP and CGMP Multicast Protocols | 172 |
| IGMP Versions 1, 2, and 3 | 173 |
| Wireless Standards..... | 176 |
| Wireless/802.11b | 176 |
| Wireless Networking Terms | 177 |
| 802.1x Authentication..... | 178 |
| 802.11 On Its Own is Inherently Insecure..... | 179 |
| Wireless Networks Are Targets for Intruders | 180 |
| 802.11 Wired Equivalent Privacy (WEP)..... | 182 |
| IPsec in a WLAN Environment | 183 |
| 802.1x/EAP | 183 |
| EAP Authentication Protocols | 186 |
| EAP Authentication Summary..... | 191 |
| Chapter 2 Answers | 199 |
| | |
| Chapter 4 Security Technologies | 201 |
| Firewalls and Access Control | 201 |
| Introduction | 201 |
| Choosing the Right Firewall | 201 |
| Types of Firewalls | 202 |
| Anti-Virus and Anti-Spyware Solutions | 207 |
| Anti-Virus Software | 207 |
| Anti-Spyware Software | 208 |

Table of Contents (Continued)

| | |
|---|-----|
| Content Filtering | 208 |
| Introduction | 208 |
| Network Address Translation..... | 210 |
| Introduction | 210 |
| Benefits | 210 |
| Terminology | 211 |
| Example 1 – Inside Local and Inside Global Addresses..... | 212 |
| Example 2 – Outside Local and Outside Global Addresses..... | 213 |
| Example 3 – Translation of all four addresses (two local and two global)..... | 214 |
| More NAT Terminology..... | 216 |
| Summary of NAT Commands | 216 |
| NAT Order of Operation..... | 217 |
| Configuring IPSec-Based VPNs (Pre-Shared Keys)..... | 218 |
| Configuring Scalable IPSec-Based VPNs Using Digital Certificates | 229 |
| What are Digital Certificates? | 229 |
| Introduction to Certificate Authorities (CA)..... | 229 |
| Certificate Authority Support on Cisco Routers..... | 230 |
| Implementing IPSEC without CA Support..... | 231 |
| Implementing IPSEC with CA Support | 231 |
| Implementing IPSEC with Multiple Root CAs..... | 232 |
| How CA Certificates are used by IPSec Devices? | 233 |
| Registration Authorities..... | 233 |
| CA Configuration Steps on Cisco Routers | 233 |
| Verifying Keys and Certificates | 239 |
| CA Configuration Example | 240 |
| Configuring NAT & IPSec Together..... | 243 |
| Configuration for Router 3640-2b | 243 |
| Configuration for Router 3640-2b | 245 |
| Intrusion Detection and Prevention | 247 |
| Introduction | 247 |
| What is Intrusion Detection? | 248 |
| Intrusion Detection Terminology..... | 248 |
| Attack Identification and Analysis | 249 |
| IDS placement..... | 251 |
| Network-Based Intrusion Detection Systems (NIDS) | 251 |
| Host-Based Intrusion Detection Systems (HIDS)..... | 252 |
| Intrusion Detection – Response Techniques and Corrective Actions..... | 253 |
| Intrusion Detection – Evasion Techniques | 254 |
| Cisco Threat Response (CTR) | 256 |

Table of Contents (Continued)

| | |
|--|------------|
| Network-Based Application Recognition | 263 |
| Identity Technologies..... | 264 |
| Introduction | 264 |
| Authentication Factors | 264 |
| Some Identity Technologies..... | 264 |
| Chapter 4 Questions | 270 |
| Chapter 4 Questions | 270 |
| Chapter 4 Answers | 287 |
| Chapter 5 Security Applications..... | 289 |
| Cisco Secure ACS..... | 289 |
| Introduction | 289 |
| Benefits | 289 |
| Cisco Secure ACS for Windows Architecture | 290 |
| ACS Version 3.3..... | 292 |
| ACS Version 4.0..... | 294 |
| Features and Benefits of version 4.0 | 295 |
| Installing Cisco Secure ACS | 297 |
| Administration of Cisco Secure ACS | 299 |
| Positioning ACS in your Network..... | 301 |
| Cisco Secure PIX Firewall | 307 |
| Introduction | 307 |
| Stateful Inspection Firewall Features..... | 307 |
| MANAGEMENT | 311 |
| Two Key Components of Cisco PIX Firewalls | 313 |
| Features of PIX Software Version 6.3 | 316 |
| Cisco PIX Appliance Models..... | 320 |
| PIX Firewall Licensing | 324 |
| Adaptive Security Appliance Series | 326 |
| Cisco Adaptive Security Device Manager..... | 329 |
| Configuring NAT and PAT | 331 |
| Saving Your Configuration | 333 |
| Configuration Examples - Two Interfaces without NAT or PAT | 334 |
| Two Interfaces with NAT and PAT | 337 |
| Site-to-Site VPN Configuration | 338 |
| Configuring Overlapping Networks..... | 341 |
| Syslog Messages..... | 343 |
| Cisco IOS Firewall | 346 |

Table of Contents (Continued)

| | |
|--|-----|
| Cisco IOS Firewall Features..... | 347 |
| Authentication Proxy..... | 348 |
| Introduction | 348 |
| Working..... | 348 |
| Authentication Proxy Screens..... | 349 |
| Compatibility | 351 |
| Configuring Authentication Proxy | 351 |
| Cisco IOS Firewall TCP Intercept..... | 355 |
| Modes | 355 |
| Configuration Sample | 356 |
| Cisco Context-Based Access Control (CBAC)..... | 356 |
| Introduction | 356 |
| Traffic Filtering | 356 |
| Traffic Inspection and DoS Attack Protection | 357 |
| Limitations of CBAC..... | 357 |
| CBAC - Working | 358 |
| CBAC Deployment Scenarios..... | 359 |
| The CBAC Process | 360 |
| CBAC - Supported Protocols..... | 361 |
| CBAC - Limitations | 362 |
| Configuring CBAC..... | 362 |
| Cisco Secure Intrusion Detection System..... | 370 |
| Introduction | 370 |
| IDS/IPS Software..... | 371 |
| Cisco Intrusion Detection Sensors - Models | 377 |
| Cisco Intrusion Detection Solution for Routers and Switches..... | 380 |
| Cisco IDS / IPS Network Interfaces..... | 380 |
| Cisco Intrusion Detection Signatures..... | 381 |
| Signature Categories | 381 |
| Signature Engines | 383 |
| Cisco IDS Alarm Levels | 384 |
| Tuning IDS Signatures | 384 |
| Cisco Intrusion Detection Management..... | 385 |
| Cisco Intrusion Detection Event Monitoring | 387 |
| Cisco IDS Management and Monitoring – Ports and Protocols..... | 389 |
| Cisco IOS IDS – Configuration..... | 390 |
| Cisco VPN 3000 Series Concentrators..... | 394 |
| Introduction | 394 |
| Concentrators..... | 394 |

Table of Contents (Continued)

| | |
|---|------------|
| Management | 396 |
| New Features in Version 4.7 (software) | 396 |
| Cisco VPN Concentrator Deployment Scenarios..... | 397 |
| VPN Clients | 397 |
| Cisco Catalyst Service Modules..... | 400 |
| Benefits | 401 |
| Firewall Services Module (FWSM) | 402 |
| Intrusion Detection System Service Module (IDSM)..... | 403 |
| IPSEC VPN Services Module (VPNSM)..... | 404 |
| SSL Services Module (SSLSM)..... | 405 |
| MARS - Security Information Monitoring System..... | 406 |
| Introduction | 406 |
| Benefits | 407 |
| Appliances | 408 |
| Cisco VMS – Security Management System | 408 |
| Introduction | 408 |
| Application | 408 |
| Current Status..... | 409 |
| Cisco Router and Security Device Manager (SDM)..... | 409 |
| SDM enabling a IOS Router | 413 |
| Chapter 5 Questions | 414 |
| Chapter 5 Answers | 430 |
| Chapter 6 Security General | 432 |
| Security Policy Best Practices..... | 432 |
| Standards Bodies and Security Organizations | 435 |
| Vulnerabilities..... | 440 |
| Know Your Enemy | 441 |
| Hacking Methodology..... | 443 |
| Common Attacks..... | 444 |
| Countermeasures..... | 450 |
| Chapter 6 Questions | 454 |
| Chapter 6 Answers | 460 |
| Chapter 7 Cisco General | 461 |
| Access Control Lists (ACLs)..... | 461 |
| Logging | 469 |
| Show and Debug Commands | 473 |

Table of Contents (Continued)

| | |
|---|-----|
| Controlling Access to a Cisco Router..... | 483 |
| Password Recovery..... | 487 |
| Encrypting Cisco Passwords | 490 |
| Disable Unnecessary Services | 491 |
| Layer-2 Switching Security Features | 492 |
| Chapter 7 Questions | 499 |
| Chapter 7 Answers | 508 |
